Resume

The Lighthouse audit score for your website is as follows: 1.
Performance: Your website scored 47 out of 100, which indicates

that there's room for improvement in loading speed and efficiency. This can help make your site faster, improving the user experience for visitors. 2. ****Accessibility****: Your score is 86 out of 100, suggesting that your website is fairly accessible to a wide range of users, including those with disabilities. However, there may be minor areas to address to ensure equal access and usability for all users. 3. ****SEO (Search Engine Optimization)****: The SEO score is 63 out of 100. This means that your website could benefit from some adjustments to help it rank better on search engines like Google, leading to more visitors finding your site organically. 4. ****Best Practices****: You received a high score of 96 out of 100 for adhering to web development best practices. This indicates that your website is well-structured and follows modern standards, which can help ensure a consistent user experience across different devices and browsers. In summary, your website needs some attention in the areas of performance and SEO to enhance its speed, user experience, and visibility on search engines. However, it's doing quite well in terms of accessibility and best practices. We recommend making these improvements for a better overall experience for all users.
