Resume

1. **Performance Score**: Our website's speed and responsiveness received a score of 71 out of 100 points. This means there is room for

improvement to ensure your site loads quickly, providing an optimal user experience.

2. **Accessibility Score**: The accessibility of our website was evaluated at 92 out of 100 points. This indicates that the site is generally accessible, but some improvements can be made to make it easier for people with disabilities to use and navigate.

3. **SEO (Search Engine Optimization) Score**: Our SEO score is 63 out of 100 points. This suggests there are areas where we could optimize our website to improve its visibility on search engines like Google, driving more traffic to the site.

4. **Best Practices Score**: We're doing well in following best practices for web development, achieving a perfect score of 100 out of 100 points. This means we are using modern and efficient techniques that adhere to industry standards, ensuring our website functions smoothly and reliably.

To summarize, while our site performs reasonably well in terms of best practices, there is still room for improvement in speed, accessibility, and SEO to provide an even better user experience and increase visibility on search engines.
