Resume

Performance: The website is currently scoring a 12 out of 100 in this category. This means that the website may be loading slowly,

which can frustrate users and negatively impact your search engine rankings. To improve performance, consider optimizing images, minimizing HTTP requests, and leveraging browser caching.

Accessibility: The site scored an 82 out of 100 in accessibility. This means that most people should be able to use the website, but there may still be some issues for users with disabilities such as visual or hearing impairments. To improve accessibility, make sure your website is keyboard navigable, add alt text to images, and ensure proper contrast for readability.

SEO: The website scored a 50 out of 100 in search engine optimization (SEO). This means that there are some opportunities to improve the site's visibility in search engine results. To boost SEO, make sure your content is relevant and high-quality, optimize your titles and meta descriptions, and ensure your website is mobile-friendly.

Best Practices: The site scored an 82 out of 100 in best practices. This means that the site follows most of the recommended web development practices, but there may still be some areas for improvement. To further optimize the site, consider using a content delivery network (CDN), minifying your HTML, CSS, and JavaScript files, and ensuring your website is secure with an SSL certificate.
